Our Office

Of Interest To You

An Intense Love for growing plants, an idle but very fertile piece of land near our home and a severe need in our community for good nursery stock prompted the beginning of our business. Our aim was to meet the needs of our own nearby vicinity with properly grown trees, shrubs and plants adapted to our soil and climate. Each order, whether large or small, is treated with the same intelligent care as if it were the only order to be looked after.

This unusual, intelligent attention in the handling of Hardy Nursery Stock was so much appreciated by our friends that we were urged to offer them the same facilities in **plants for home and conservatory decoration**. We are pleased, therefore, in being able to offer this very carefully selected list of plants to those interested. It offers a suitable

plant for every purpose for the lawn, garden, orchard or home, and our customers can secure in one shipment from the same place an entire order.

Our Offices, Greenhouses and Show Grounds, covering several acres, are very accessibly located along South Thirteenth Street below Berryhill. We welcome visitors at all times, Sundays excepted. Take Oberlin or Steelton via Nineteenth Street cars, which pass by Thirteenth and Berryhill Streets within seven minutes after leaving the Square. Our nursery farm is located five miles northeast of the city. Here we have over one hundred acres rapidly being planted with nursery stock.

Our people are thorough, intelligent plantsmen. Both our Nursery and Greenhouse foremen have been trained in the famous Kew Gardens in England, and have had extensive experience in the fruit and ornamental nurseries of Germany and France. Others of our force have had extensive experience on many of the large estates of this country.

Tree Moving, Spraying, Pruning and General Garden Work. We are prepared to send men to do all sorts of expert work of this character, and to undertake the continuous care of lawns, gardens, etc., within nearly access to Harrisburg.

Shipping Season for nursery stock begins about March 1 and continues until May 15. The fall shipping begins about September and continues until the ground freezes. Evergreens, with balls, can be safely moved through almost the entire year, and we are prepared to supply roses and vines from pots at all times. House plants, such as Palms, etc., can be shipped throughout the entire year. Seasonable blooming plants as noted under each item.

Shipments are made by mail, express and freight. Small plants can often be sent by mail. Larger plants, shrubs, etc., should travel by express, and unless otherwise instructed we ship charges collect. A discount of 20 per cent is allowed by the express companies on nursery stock. Large, heavy shipments travel safely by freight. When no definite instructions are given we use our best judgment.

Order Early. Our rule is to fill orders in the rotation received. Order early and insure your stock coming from the largest selection and reaching you at the earliest moment for planting.

Substitution. We warrant our stock true to name and will replace any that may prove otherwise. Late in the season we may be sold out of some varieties and sizes, and unless otherwise ordered we will take the liberty of substituting similar varieties.

Prices. The prices quoted herein are for stock delivered to nearby points or to freight or express companies free of charge. Where crating or baling is necessary, a slight charge is made to cover actual cost. Our responsibility ceases on delivering shipments to the carrying company.

Terms. Cash with order. Except to persons known to us or sending satisfactory reference. Address all orders to

OUR LANDSCAPE DEPARTMENT

To all those contemplating the proper development of their grounds we offer the services of our Landscape Department. Many well-meaning people make the mistake of occasionally buying a few shrubs or trees and having them planted in their grounds regardless of any definite plan. Our charge for making a concrete scheme for the entire planting can be saved many times, if taken advantage of in the beginning. With a definite plan in view, the customer can then work it out, either as a whole or in part. The same careful attention is given to the customer who has a small city lot to plant that we give to the larger estates, country clubs, cemeteries, factories, etc. We can help you to make your lawn a real picture; to place your vegetable, fruit and cut-flower garden in the proper place; to screen out unsightly places; in short, to get the most pleasure out of a given area, and with the use of our large trees and shrubs to get the effect at once. Either send us a sketch, giving dimensions, and photographs, or communicate with us and we will arrange for a visit.

Plan for a city lot.

EVERGREEN TREES

Like old and true friends, the Evergreens are always the same, summer and winter, and no planting is complete without a touch, at least, of their continuous companionship. As specimens on the lawn, for massing or windbreaks and hedges, some of the fine varieties here offered cannot be surpassed.

Tubbed and potted evergreens—valuable for porch or formal decorations.

Laurel (Kalmia latifolia).

EVERGREEN SHRUBS

Like the Evergreen Trees, the Evergreen Shrubs are a very valuable class of plants. As an edging for a mass planting of evergreen trees or a solid mass planting of themselves, they are equally good. The old fashioned box trees, Laurel and Rhododendrons, are among the most noted of the class. On the last named two plants we shall be pleased to quote attractive prices on large lots.

ANDROMEDA floribunda (Mountain Fetter Bush). Fine low-growing shrub producing tiny lily-of-the-valley-like flowers in early spring. Most effective in masses planted closely.

	Each 10
1-1½ ft.....	\$1.50 \$13.50
1½-2 ft.....	2.00 18.00

A. Japonica (Japanese Fetter Bush). Habit similar to above. Flowers early and does well in shady places.

	Each 10
2-2½ in.....	\$1.50 \$13.50

AZALEA Amoena (Hardy Evergreen Azalea). A low, bushy shrub with leaves similar to the common boxwood. Whole plant is covered in spring with brilliant scarlet-purple flowers, remaining on for two or four weeks. A fine plant for low hedges or along the border of shrubbery plantings.

 $5-7$ in. 1,000, \$80. .1.50 13.50

COTONEASTER microphylla (Small-leaved Cotoneaster). Low shrub with beautiful glossy foliage; white flowers in late spring, later followed with bright red berries. Each ¹⁰
 12 in. \$0.75 \$6.00

EUONYMUS Japonica (Japan Euonymus). Beautiful evergreen shrub of dense, upright habit, holding its brilliant green leaves throughout the winter. Each ¹⁰
 $1\frac{1}{2}-2$ ft. \$0.50 \$4.00

E. Japonica, var. aurea (Golden-leaved Japan Euonymus). Form of the above with golden-yellow variegated foliage. Each ¹⁰
 $1-1\frac{1}{2}$ ft. \$0.50 \$4.00

GARLAND FLOWER (*Daphne Cneorum*). A very dainty, dwarf spreading shrub. Extremely fragrant; small dark green leaves. Each ¹⁰
 $8-12$ in. \$1.00 \$7.50

HOLLY, Japanese (*Ilex crenata*). Dense, compact shrub. Will permit of trimming into various shapes. Each ¹⁰

$1\frac{1}{2}-2$ ft.	\$1.50 \$13.00
$2-2\frac{1}{2}$ ft.	2.50

LAUREL Mountain (*Kalmia latifolia*). One of the best evergreen shrubs known. Broad, dark glossy leaves and masses of rose-pink flowers in great profusion in early spring. We have a fine stock of this very desirable plant.

Each ¹⁰	
$1\frac{1}{2}-2$ ft.	\$1.00 \$7.50
$2-2\frac{1}{2}$ ft.	1.50 13.50
$2\frac{1}{2}-3$ ft.	2.00 17.50

LEUCOTHOE Catesbaei (Catesby's Leucothoë). Very graceful, dwarf, spreading shrub with long, drooping branches. Leaves shiny green, much used at Christmas. Flowers creamy white. Each ¹⁰
 $1-1\frac{1}{2}$ ft. \$0.75 \$6.00

Azalea amoena.

MAHONIA aquifolium (Holly-leaved). Handsome shrub with dark green, shiny, toothed leaves. Flowers yellow in dense clusters; very effective when the blue-black berries appear late in the summer.

	Each	10
1-1½ ft.	\$0 50	\$1 00
1½-2 ft.	75	6 00
2-3 ft.	1 25	10 00

M. Japonica (Japanese Mahonia). Similar to above with larger and more showy foliage. Possibly the best of the family.

	Each	10
1-1½ ft.	\$0 75	\$0 00
1½-2 ft.	1 50	13 50

Rhododendron.

Rhododendrons

The most effective and showiest of all shrubs. Beautiful all the year as a foliage plant, and grand when covered with many-colored, showy flowers in June and July. Plants are taken up with a large ball of earth and can be moved nearly the entire year. If the bed is properly made in the beginning, little attention is necessary thereafter.

Rhododendron album elegans. White, large flowers.

R. album grandiflorum. Blush-white; very large truss.

R., Betsy Parsons. Reddish purple

R. Everestianum. Rosy lilac, spotted and fringed; the best of the hybrids.

R., H. W. Sargent. Scarlet.

R. Parson's Gloriosum. Clear rose; free flowering.

R. purpureum grandiflorum. Purple, very large flowers.

R. roseum elegans. Rose; very fine.

R., True Catawbiense. Flowers rosypurple. Native in the southern mountains.

Prices, Catawbiense Hybrids:

	Each	10	100
1½ to 2 ft.	\$1 50	\$12 50	\$100 00
2 to 2½ ft.	2 50	22 50	

R. maximum (Great Laurel). Native of our mountains. Blooms later than the hybrids. Write for prices on larger quantities and sizes, as we can supply car lots at prices that will interest.

	Each	10
1½-2 ft.	\$1 25	\$10 00
2-2½ ft.	2 00	17 50
2½-3 ft.	3 50	

R. myrtifolium (Myrtle-leaved). Dwarf, compact shrub. Flowers pink. The best of the dwarf Rhododendrons.

	Each	10
1-1½ ft.	\$2 00	\$17 50

R. punctatum. The earliest to flower. Rose, spotted with yellow-green; very desirable.

We are prepared to quote special price on car-load lots of Kalmia and Rhododendron maximum, the two most desirable evergreen shrubs for large mass planting. See special uses of evergreens for hedges and winter window-boxes on pages 11 and 62.

Hydrangea Paniculata Grandiflora

Hedge of California Privet (*Ligustrum ovalifolium*).

HEDGE PLANTS · LIVE FENCES

The proper selection and planting of a hedge settles the matter of the boundary line for all time. Not only is this treatment more beautiful, but it is far less expensive, needs no painting and very little repairing. We suggest below a list of the best plants for hedge fences, and give the **approximate** cost per hundred feet, using average-sized plants. Smaller plants would require more, larger less; the total cost would be approximately the same. Prices of the separate plants can be found under the listing elsewhere in this catalogue.

DECIDUOUS TREES

Deciduous trees, or those which drop their foliage in the fall, are a necessity in every form of planting, whether it be large or small. There is such a variety in size, shape, foliage and habit that it is possible to obtain deciduous trees for every purpose. Many of them bear handsome flowers and some are noted for their various colors of foliage. Some show their chief beauty in spring, while others require the early frosts to bring their beauty to full perfection.

Ailanthus

Tree of Heaven (*Ailanthus glandulosa*). A beautiful tropical-like tree. One of the fastest growing, attaining a height of 60 to 80 feet, with long sprays of foliage much like sumac. It thrives in smoky places and in soils in which no other tree will grow.

Each 10
8-10 ft. \$1 25 \$10 00

Alder · *Alnus*

European or Black (*Alnus glutinosa*). A handsome, low-growing, pyramidal tree. It is a wonderfully fast grower, seldom exceeding 30 feet, and particularly valuable for damp situations.

Each 10
6-8 ft. \$1 00 \$8 00

Angelica Tree · *Aralia*

Japanese (*Aralia Japonica*). A gorgeous flowering tree, with handsome, divided foliage and showy trusses of white flowers in July. Grows to 40 feet high and is distinctly ornamental at all times.

DECIDUOUS SHRUBS

No yard is complete without one or more beautiful flowering shrubs, and we would urge a more extensive planting of this class of ornamentals covering such a wide range in flower and foliage, habit of growth and season of blossoming. Requiring but small space, they can be used on lawns to fill vacancies, where large trees could not be harmoniously grown, breaking the monotony of the landscape by grouping and distributing singly according to size of grounds and scenic effect.

We will supply 5 shrubs at the 10 rate; 25 at the 100 rate; 250 at the 1,000 rate. Our shrubs are well grown, frequently transplanted and our soil produces fibrous roots. It costs us more to handle them this way, but it's worth it to you if you want results without disappointment.

You can have a bed of Roses like this the first year by planting our strong stock.

ROSES

No garden or lawn is complete without them, and no flower so royally repays for its care. With these varieties in our own garden we have cut quantities of bloom from the middle of May until late in November.

In most varieties we have potted stock, so that shipment can be made safely at any season. We offer all varieties in three grades.

VINES, CLIMBING AND TRAILING PLANTS

For shading porches, covering embankments, covering the ground under trees or shrubbery, or as screens, shutting out unsightly places, vines are invaluable. They can always be kept within bounds and are exceedingly decorative. We grow nearly all varieties in pots which enables their being transplanted at any season. All are strong vigorous plants fully worth the price.

Aristolochia Sipho (Dutchman's Pipe)
and Hardy Ferns

HARDY FERNS

The joy of the woods is the ferns. Many damp, shaded locations about the home grounds are well adapted for the planting of hardy ferns, and when once established they are a joy forever.

25 cts. each, \$2 for 10, \$15 per 100. Mixed varieties, our selection, 15 cts. each \$1 for 10, \$9 per 100.

ADIANTUM pedatum (Maidenhair Fern). 1 to 2 ft. Moist, shaded positions.

ASPIDIUM acrostichoides (Christmas Fern). 1 to 2 ft. Evergreen. Dry or moist soils in shady places.

A. marginale. Evergreen. 1 to 2 ft. Shaded positions, dry or moist soils.

DICKSONIA punctilobula (Boulder Fern). 2 to 3 ft. For open positions, forms large plantations.

OSMUNDA cinnamomea (Cinnamon Fern). 2 to 5 ft. For open or shaded positions, in wet soils.

WOODSIA obtusa. 6 to 12 in. Shady places, in moist soil.

Note that we grow nearly all varieties of vines in pots so that we can make delivery most any time during the season without shock to the plant. For quick covering it is well to plant an annual vine also (see page 55, Cobaea Scandens), while the permanent vine is coming on.

HARDY HERBACEOUS PLANTS

This includes all the fine old-fashioned plants that grew in grandmother's garden, and some new ones just as beautiful. The plants die to the ground each fall but the roots remain alive, and the pleasure of welcoming the old friends each year is always enjoyed.

Plants followed with "S." are suitable for swampy places; "Sh." for shady locations; "R." for rockeries; "D." for dry soil conditions and "C." for cutting.

PRICES

Except where otherwise noted any of the following plants will be supplied in strong clumps at the following prices: Single plants 25 cts., 10 for \$2, 100 for \$15; 5 plants at the 10 rate, 25 at the 100 rate. Write for special prices on large quantities and special selections.

FRUIT DEPARTMENT

Great care has been taken in the selection of our list of fruits, and we heartily recommend the varieties given as being well adapted to this section and soil conditions. Every home grounds should have some fruits, and we call special attention to our **Dwarf Apples and Pears** as being suitable for the smallest city lot, and the fact that the fruit can be picked so early after planting.

We grow many other varieties not here given, and shall be pleased to quote special prices on large quantities.

ANNUAL PLANTS

Ready to set out the first days of spring

Last year we offered a limited quantity of annual plants which had been started in the greenhouse early. The supply was soon exhausted and our customers wanted more. This year we are determined to have enough, and have planned for a much larger stock. All grown in pots or flats and easy to transplant. You can have blooming plants from these while your neighbor is just getting started. Ready for shipment May 1.

Price, 25 cts. per doz., \$1.50 per 100. One dozen each of the entire collection of 10 varieties for \$1

Wedding Flowers, Special Decorations, Etc.

Should you wish something in church or home decorations, give us a trial. With our experience and equipment we can furnish your decorations better and cheaper than you can put them up yourself.

When ordering flowers for a wedding, it is always best to give as much time as possible, as wedding flowers are usually arranged to carry out some special plan and are not always carried in stock.

Material to be used varies with the season. Southern wild smilax and smilax strings are always available and appropriate. Prices on application according to the size of the decoration.

Brides' Bouquets

The most popular kinds are the large, round bouquet of white roses with a shower of lily-of-the-valley, made with a profusion of asparagus, and narrow chiffon or silk ribbon. Small, \$6 to \$7.50; medium, \$8 to \$10; large, \$12 to \$15.

Same bouquet in solid lily-of-the-valley instead of roses. Small, \$8 to \$10; medium, \$10 to \$12; large, \$15 to \$18.

Gents' Buttonhole Bouquets. 10 to 25 cts. each, \$1 to \$2 per doz., \$5 to \$12 per 100.

Ladies' Corsage Bouquets. Choice flowers, gracefully arranged. 50 cts. to \$3 each. Special rate in quantities.

Fancy Basket of Cut-flowers. Small to medium, \$1.50 to \$3; medium to large, \$3.50 to \$5; extra fine, \$6.50 to \$10 and upward to order. Special table designs, etc., at reasonable rates.

Flowers for Funerals

In ordering funeral flowers on short notice, please bear in mind that it will be to your advantage to give us as much time as possible—the more time we have the more care we can bestow on the work. If we know the time of the funeral it is often a great help to us in selecting the most suitable flowers as to durability, etc.

Any size or style can be furnished at short notice. Below are named the kinds mostly used, and are the leading standard and new designs.

Sprays or Bunches of Choice Roses Tied with Ribbon. Small, \$3 to \$4; medium, \$4 to \$5; large, \$6 to \$8; extra large, \$9 to \$12.

Two Great “Get Acquainted”

Collections

No. 1.—JAPANESE COLLECTION OF ORNAMENTALS

All standard popular plants that will do well in most any soil conditions, need little care, and sufficient to make a good showing in an average-sized city front yard.

- 2 Clumps Japanese Iris. Strong.
- 2 Japanese Peonies. Large size.
- 1 Japanese Rose. 1½ feet high.
- 1 Japanese Maple. 12 to 18 inches high.
- 1 Japanese Barberry. 1 foot high.
- 1 Clump Japanese Grass. Large.

All of the above thrifty, strong plants, carefully packed and shipped, express paid, for only \$2 cash with order.

No. 2—SMALL AREA FRUIT COLLECTION

That back or side yard can be made far more beautiful and infinitely more interesting with a few trees and berries. This collection is suggested especially for the small yard, and with the introduction of Dwarf Fruit Trees in apples and pears, fruit can be picked from the trees the second year after planting. They produce the same quality of fruit as the ordinary tree, but the habit of growth has been so changed by grafting that the trees never attain a height of more than ten feet.

- 2 Dwarf Apples. Early and late varieties.
- 1 Dwarf Pear. Standard variety.
- 2 Standard Peach, Early and Late varieties.
- 1 White Grape. 2-year old.
- 1 Red Grape. 2-year old.
- 2 Red Currant. 2-year old.

All of the above in good, strong, satisfactory stock, not the tree-agent kind, carefully packed and shipped by prepaid express, for only \$3.50, cash with order.

The Two Great Collections for \$5. Order Quick!
